Microgravity University for Educators

Calling All Teachers!

Come spend a week at Johnson Space Center’s Space Vehicle Mockup Facility (expenses paid!) while you:

- Test your students’ designs using NASA’s simulated microgravity environments
- Earn Professional Development hours
- Incorporate current NASA programs into your classroom

Visit http://go.nasa.gov/NASAMgUE to learn more about Microgravity University for Educators.

Hurry! Proposals are due December 1, 2016!

All questions can be directed to JSC-EPD@mail.nasa.gov.

Get the most out of MgUE! Follow these tips from NASA Astronaut & former classroom teacher Ricky Arnold:

1. Take advantage of the know-how and facilities that help us prepare to do amazing things in space.
2. Enjoy your time at Johnson Space Center, the home of human Spaceflight.
3. Share your experiences with your students, colleagues and school community back home.

Tune in to an online information session that includes tips from the Microgravity University for Educators Coordinators and subject matter experts. Go to http://go.nasa.gov/NASAMgUE to attend one of these sessions:

- Thursday, October 27, 2016 at 7:00 pm Central
- Tuesday, November 1, 2016 at 7:00 pm Central
- Thursday, November 17, 2016 at 7:00 pm Central
